Dr. Fettrow,

The City is currently in possession of a 2000 Ford Taurus. This vehicle was previously utilized by the Police Department for stolen car searches using the LoJack technology. After this service, the vehicle was turned over to City Hall for the Information Technology team to utilize. This necessitated the removal of law enforcement accessories, leaving several holes in the cabin roof, which are now filled with construction adhesive.

The vehicle is currently out of service. A recent assessment from the Public Works Department indicates \$1,575 in necessary mechanical and \$1,000 in cosmetic repairs before the vehicle could be utilized for City purposes. Further mechanical repairs may be necessary after a road test could be conducted.

The Kelley Blue Book value for the vehicle is \$181-\$424.

Recommendation is for the vehicle to be designated as surplus. Further recommendation is to direct staff to dispose of the vehicle in the most economic method for the City.

Respectfully submitted,

Matthew D. Trine

Just an FYI. The vehicle may need additional repairs when it can be road tested (driven)
