

**Deck Nailing, Roof Sheathing, Roof Ventilation Affidavit**

Permit # \_\_\_\_\_

Address \_\_\_\_\_

As the contractor of record I certify the following:

1. The roof deck attachment fastening for site built single family residential structures shall be fastened in accordance with Florida Building Code (FBC) 2020 7<sup>th</sup> Edition, Existing 706.7.1 as appropriate for the existing construction.
2. All water soaked, rotten or damaged sheathing shall be removed and replaced with new wood sheathing as required by the FBC Residential 2020 7<sup>th</sup> Edition and FBC Building 2020 7<sup>th</sup> Edition.
3. All existing roof ventilation openings including ridge and off ridge vents shall be replaced in the same existing location, OR if any alterations to the existing roof ventilation system are performed, revised roof ventilation calculations per the FBC Residential 2020 7<sup>th</sup> Edition and FBC Building 2020 7<sup>th</sup> Edition shall be submitted for approval and any deleted roof ventilation openings shall be replaced with solid sheathing per the FBC Residential 806.2 and FBC Building 1203.2.
4. The clothes dryer exhaust vents replaced shall have no screens installed at the duct termination FRCM 1502.3.
